CADZOW CLASSIC

Natural Stone Paving

Natural stone paving is a great choice for any garden project. With natural variations in tones and veining, each flagstone is truly unique. Palettes are available in various colour schemes with differing riven surfaces and textures. There is a natural stone solution for every project!

Why Natural Stone Paving?

Durability

Natural stone paving benefits from being formed naturally, giving it excellent durability when compared to concrete paving.

Colour

As the name suggests, these paving stones are formed naturally and suffer no colour loss over time. Pressure washing will only ever expose a fresh natural surface.

Promenade

Grey tones throughout homes are becoming an extremely popular choice, Promenade is a great balance between keeping in fashion and maintaining the traditional feel of riven sandstone paving. Varying shades of grey are complimented by a very occasional hue of brown.

Please note - the colours shown in the images are only a reference and because of the nature of natural stone, there may be slight colour variation in tone and patterns.

Thickness - 24mm

Pack Size - 1.53m²

Pieces Per Pack - 48

Finish - Natural split
face/ Hand cut edges

Size	Number Per Pack
900x600	13
600x600	13
600x300	13
290x290	9

Single size packs available to order by request
Please note that sizes are nominal

Carbon Black

Carbon black limestone paving is an attractive and sophisticated choice boasting deep charcoal tones. Offering less variation than its sandstone counterparts, it instead has a more uniform tone throughout. Please note due to the nature of this stone over time its surface can gradually lighten.

Please note - the colours shown in the images are only a reference and due of the nature of natural stone, there may be slight colour variation in tones and patterns.

Thickness - 22mm

Pack Size - 1.5.3m²

600x600	13
600x300	13
290x290	9

Single size packs available to order by request
Please note that sizes are nominal

Harvest

The beautifully blended mix of Harvest proves itself to be a popular choice as its wide variation of tones and hues can seamlessly blend with any garden scheme. Harvest is mixed with flashes of pink/purple combined with base colours of golden yellow, brown, grey and cream to create a rich vibrant patio.

Please note - the colours shown in the images are only a reference and due to the nature of natural stone, there may be slight colour variation in tones and patterns.

Autumn Brown

Autumn Brown natural sandstone paving - a timeless choice and well known for being hardwearing. Predominantly a mellow blend of browns, it can also feature some grey and purple tones, providing a warm feel to your patio.

Please note - the colours shown in the images are only a reference and due of the nature of natural stone, there may be slight colour variation in tones and patterns.

LEWIS BLOCK PAVING

Lewis

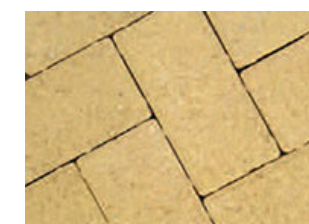

This is a popular choice if you want to create simple, yet distinctive patterns with paving in your driveway or in the garden. The rectangular shape of Lewis makes it highly versatile. Design possibilities include herringbone and stretcher. Lewis block paving are 200x100mm and are available in 3 depths- 50mm, 60mm & 80mm. Permeable options are also available.

Depth	m ² Per Pack
50mm	9.76
60mm	7.2
70mm	6.16

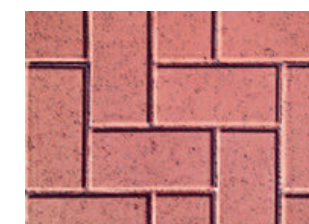

Lewis is available to order in the following colours:

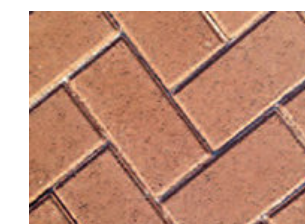

Burnt Ochre

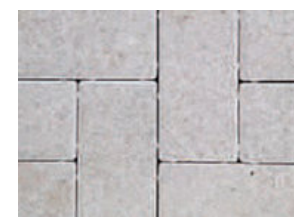

Buff

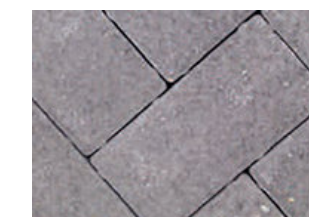

Red

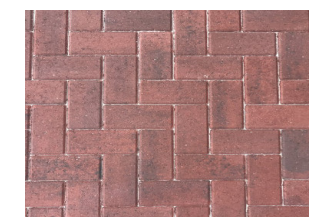

Marigold

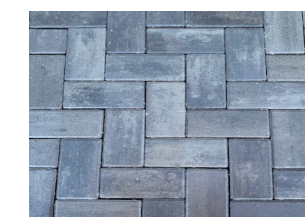

Silver Grey

Charcoal

Brindle

Skye

MAURA & CLOCHA BLOCK PAVING

Maura & Clocha

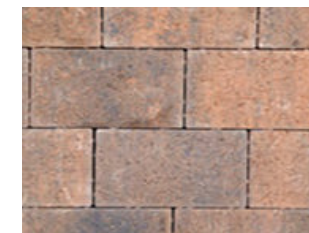

Maura and Clocha block paving come as a mix of 3 sizes (240x160mm, 160x160mm and 120x160mm). The two finishes provide a block solution for both modern and contemporary projects.

Size	m ² Per Pack
240x160	8.07
160x160	8.95
120x160	8.07

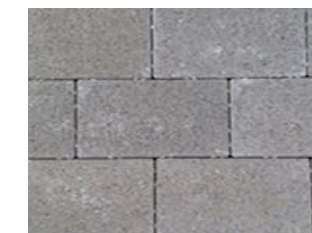

Maura has a smooth finish which provides close fitting joints - creating a neat and modern finish.

Clocha has been tumbled to give an antique appearance, similar to weathered stone. It is a perfect choice for adding a touch of character to a period residence.

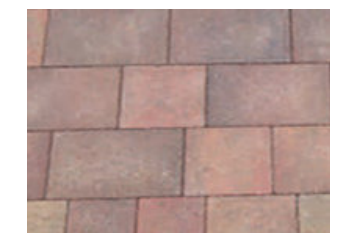

Both are available to order in the following colours:

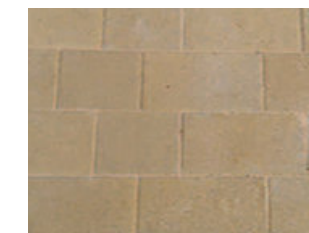

Burnt Ochre

Charcoal

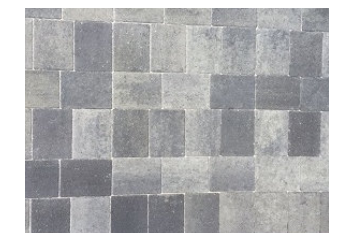

Rose

Sunflower

Meadowstone

Skye

Maura, Burnt Ochre

EDGING & SETTS

EDGING & SETTS

Natural Stone Setts

Our natural stone setts compliment our natural stone paving beautifully. A versatile option, they can be used to create a border around paving, patios or even be used on their own to create a rustic cobble pathway or driveway. Available in Carbon Black, Golden Fossil, Lakeland and Promenade in 100x100mm and 200x100mm.

Kaber Kerb

A popular choice due to its versatility, Kaber Kerbs can be used for a multitude of applications - edging, steps, and retainers for raised planting areas. Kabers are manufactured in Burnt Ochre, Silver Grey and Charcoal. Most popular in a rumbled finish.

KS & KL Kerb

KS and KL kerb have been widely used as an attractive and smooth edge. With a variety of colours they can either compliment or provide a contrast to your project. Available in Brindle, Burnt Ochre and Charcoal.

ARTIFICIAL GREEN WALL

Artificial Green Wall

Introducing our new artificial green foliage walls. Simple to install and available in three realistic looking styles. Use on both internal and external projects for an eye catching result.

Transform plain walls or turn unsightly areas into an oasis of green. Replica vertical green walls are a lot easier to maintain than real plants. They offer similar visual and feel-good benefits, but require no upkeep. EverWall is popular for use in domestic and commercial settings.

Our panels offer flexibility and can be cut to shapes, so you can be as creative as you want – the only limit is your imagination!

Each panel measures 1m x 1m. The hedge can be simply fitted by stapling on to a surface, or installing onto wooden battens, alternatively a steel mesh backing is available.

Panel A

Panel B

Panel C

PORCELAIN CLADDING

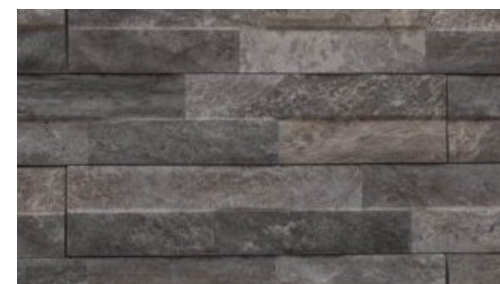

Suitable for both internal and external applications

Rok Cladding

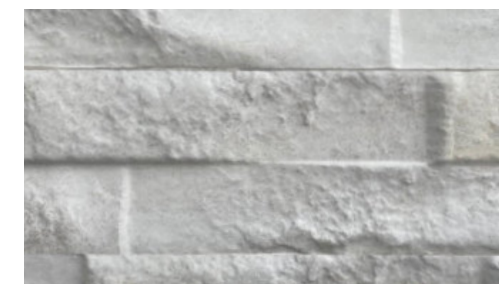

The Rok collection from Vitripiazza is a unique range of porcelain cladding which is perfect for those looking to add something different to their garden. The densely textured tiles give the effect of natural stone cladding, with a modern, random block effect which boasts varying tones and colour palettes.

Dimensions - 385mm x 75mm x 8-12mm. Each box contains 26 tiles and covers 0.75m².

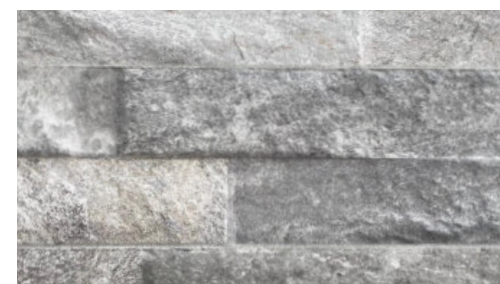

This range is available in four colour ways -

Black

White

Grey

Green

Black

TIMBER SLEEPERS

Timber Sleepers

Our timber sleepers are incredibly versatile, giving you the opportunity to get creative. They have endless garden or leisure applications. They can be used as boundaries, edgings and planters as well as distinctive raised beds and borders, decks, terraces and walkways.

Sawn Sleeper - Our UC3 sawn sleepers have endless garden or leisure applications.

Size - 200mmx100mmx2400mm

Timeless Smooth - Our UC3 smooth sleepers offer attractive planed surfaces and chamfered edges for any landscaping project.

Size - 200x100x2400mm

Charred Brushwood - Charred, brushed and high-pressure treated, our UC3 charred brushwood sleepers are a long lasting landscaping timber product with a unique enhanced grain finish.

Size - 250x125x2400mm

Timeless Smooth

LANDSCAPE ACCESSORIES

LANDSCAPE ACCESSORIES

Landtex

Our Landtex professional landscape fabric is a thicker alternative to our Weedtex weed control fabric, providing heavy duty weed control in most types of landscape projects. Landtex is available in 1x15m rolls.

Groundtex

Groundtex woven geotextile is a multi-purpose woven geotextile fabric that can be used for weed suppression and ground stabilisation in both soft and hard landscaping schemes. Available in 4.5x11m Contractor packs and 1x15m, 2x50m rolls.

Extrafix Pegs

The Extrafix plastic peg provides a simple and convenient way to secure all types of weed control and geotextile fabrics. These plastic fixing pegs are 160mm long with barbed edges and a square head, providing a large contact area, greater grip and improved anchorage.

Easy Tile Align

The quick and easy solution for ensuring a perfectly level patio.

Fit - Spin - Snap. EASYTileAlign is quick and convenient. It is suitable for traditional tile installation methods, or for use with Azpects revolutionary EASYClickBase system.

Smooth, Even Surface. EASYTileAlign ensures that a smooth, even surface is achieved on calibrated, ceramic, or porcelain tiles.

Easy to Use and Reusable. EASYTileAlign is an easy to use levelling system that incorporates a tile spacer and levelling cap, plus optional protective shields. After use, the screw caps and shields can be reused from job to job.

Spacers available in -

- 3mm - Black**
- 5mm - Yellow**
- 7mm - Orange**

Prem-Prime Priming Slurry

UltraScape prem-prime is a polymer modified cementitious slurry primer specifically formulated to provide exceptional bond between all types of paving surfaces and new mortar base. The product is suitable for application on driveways, patios, town centre pedestrian schemes, pathways and carriageways. UltraScape Prem-Prime can be used with natural stone, concrete flags, Porcelain tiles and clay pavers.

Easy Joint PRO

EasyJoint PRO is two-part epoxy compound for use as a paving joint filler. It has a coated sand and a separate activator which require mixing before use unlike regular single part compounds which are a different composition, premixed in a factory. EasyJoint PRO will cure in any conditions once mixed.

Porcelain Grout

EASYGrout mixes readily with water to give a highly flowable joint filling and grouting mortar. Ideal for use on porcelain floor surfaces where a high early strength, resilient, compact grout joint is needed, particularly in areas subject to early and sustained trafficking. It is available in three colours and is suitable for grouting joints internally and externally around porcelain tiling and paving slabs, filling joints from 5mm up to 25mm wide with a minimum joint depth of 20mm.

Available in 15kg tubs packed in 3 x 5kg bags for more economic mixing - less waste.

Squeegee applicators and paddle mixer drill attachments are also available.

Available in the following colours

Crema

Blanco

Argent

Grafito

Joint-It Simple

Joint-It Simple is a ready to use permeable jointing compound that can be applied in all weathers.

It replaces traditional mortars and grouts with a more modern and efficient product that is Cement Free. Ideal for jointing paving slabs, cobbles and natural stone.

Ready to use from the tub, no mixing, no second part to stir in, just open and use, simply brush in. Rain or shine Joint-It goes in fine!

Available in the following colours

Acknowledgements

We'd like to take this opportunity to firstly thank all the customers over the years who have purchased materials and invested their trust in our ability - it's through their custom we have been able to grow and fulfil our aim of providing a reliable and affordable service.

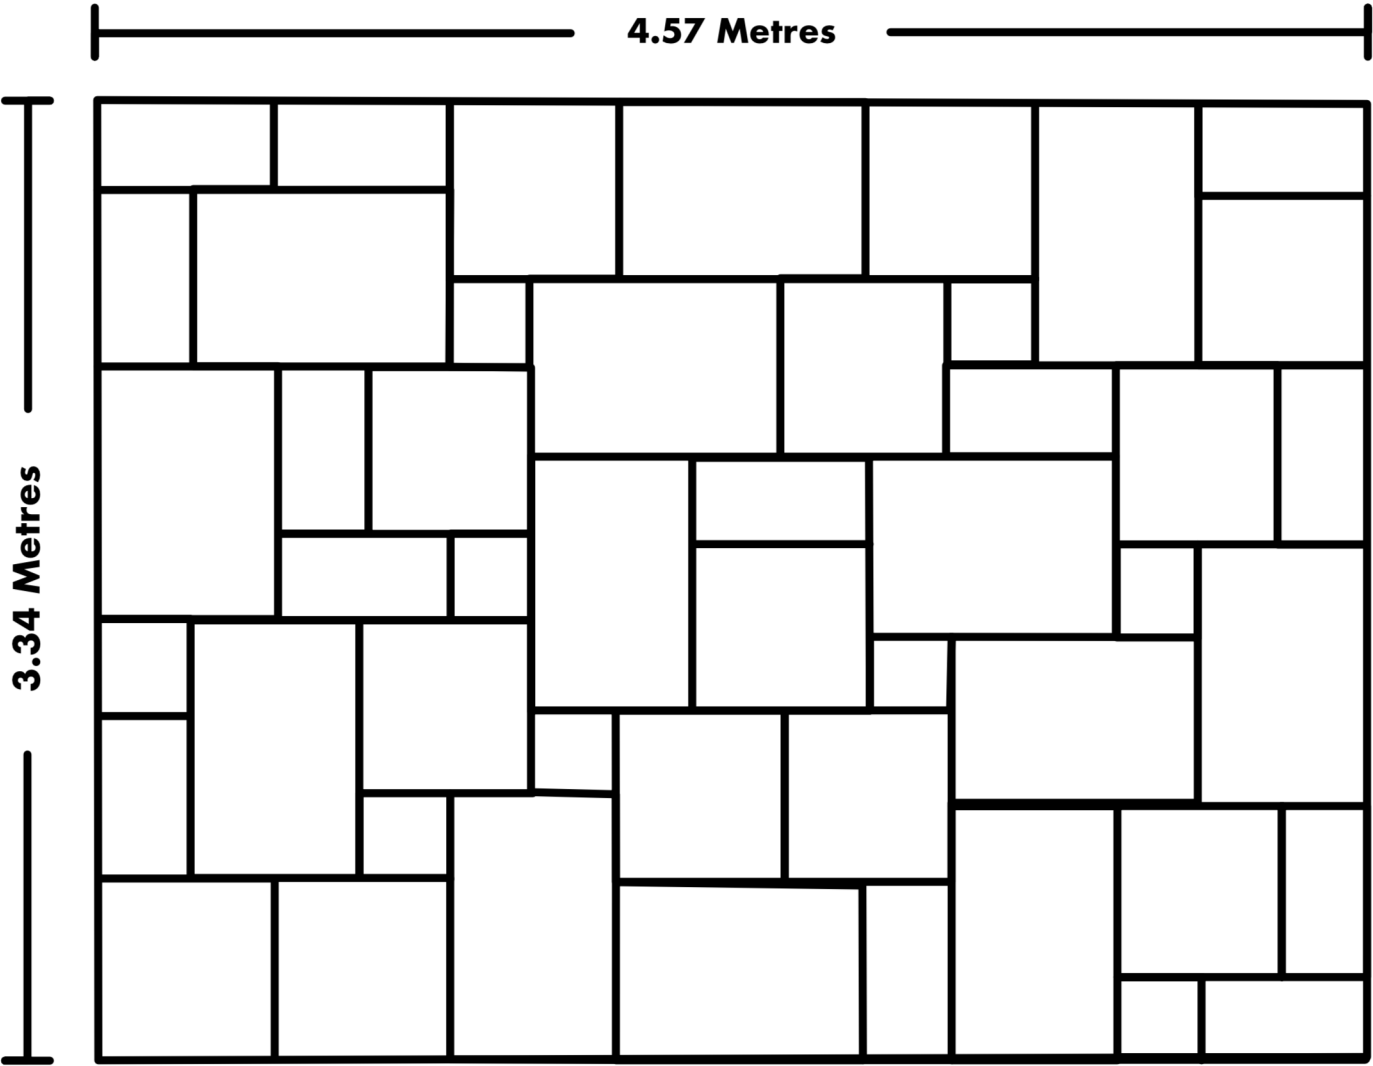

We'd also like to thank all the landscaping professionals for their continued support and custom - creating incredible garden spaces.

Pictures used throughout this brochure have been kindly sent by our suppliers and clients. Details of these installers are available upon request or can be found on our website.

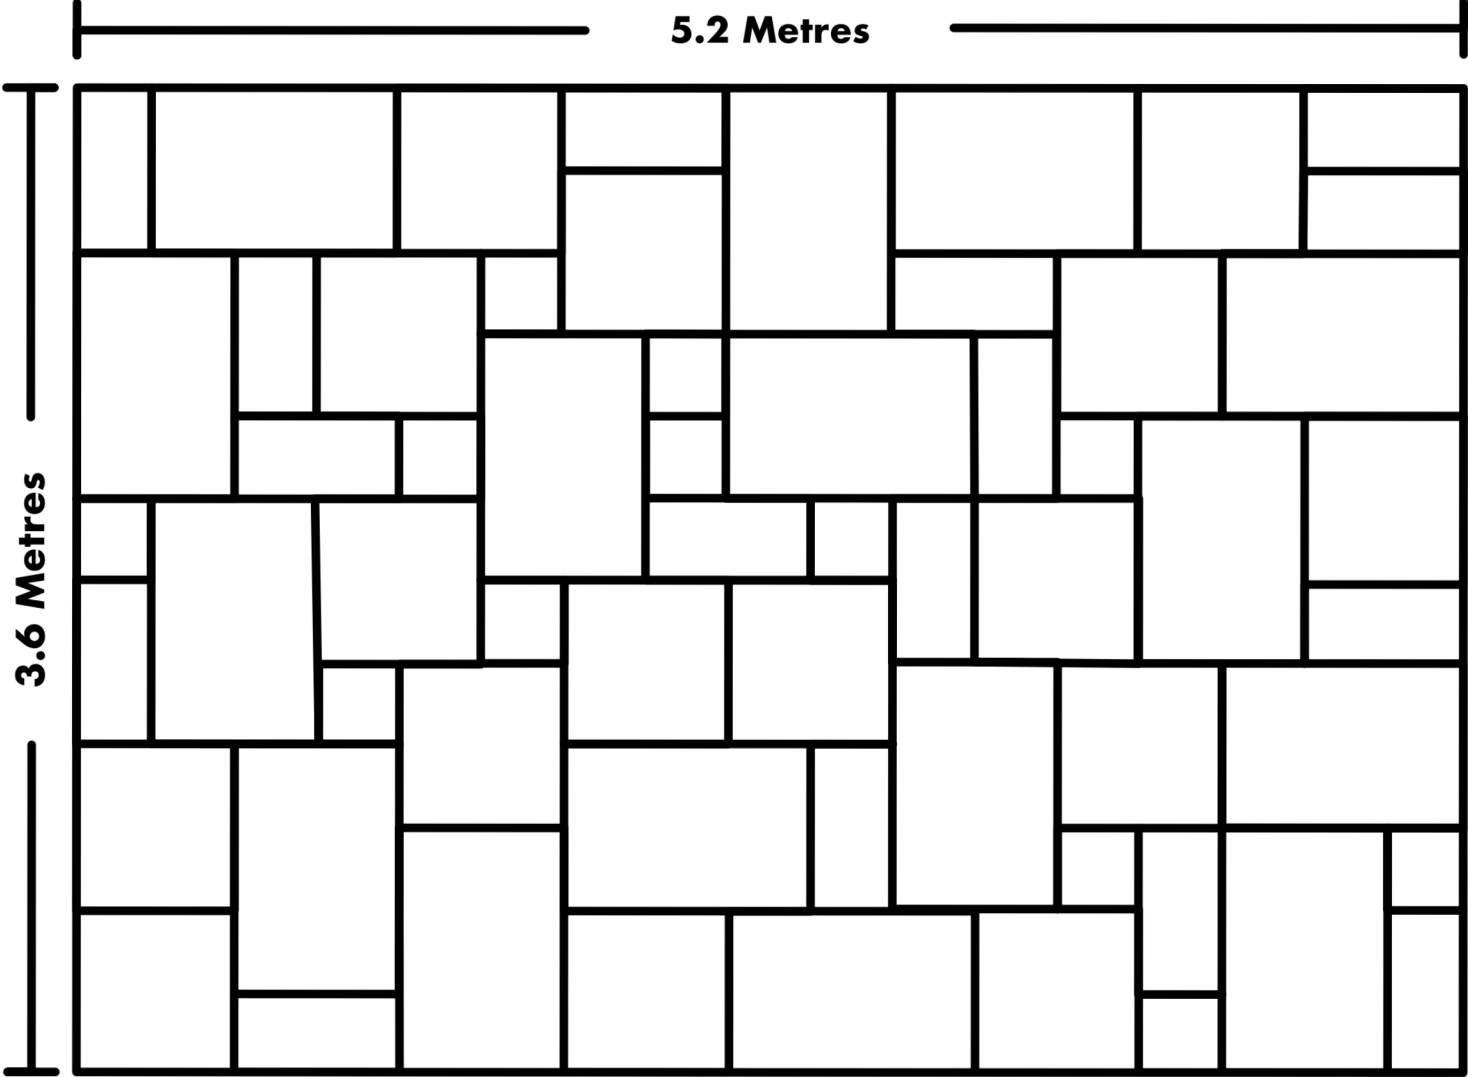

Assuring you our very best of attention at all times,

The Management,
